

Residential Solar Rate
Effective October 2023

Eligibility:

This Rate is applicable to District customers served under the Residential Rate Schedule who install photovoltaic (PV) solar system having a nameplate rating of 10,000 watts or less. To be eligible the customer must sign a Solar Electrical Application and Agreement and comply with the installation and equipment specifications contained therein.

Billing:

Customers with eligible PV solar systems will be billed under the Residential Rate Schedule subject to the following modifications:

<u>Monthly Service Charge:</u>	\$ 16.05
<u>Energy Delivered to District:</u>	\$ 0.04 per kWh Credit
<u>Special Meter Charge (one-time charge):</u>	\$ 160.50

Under this solar rate adjustment schedule, the kilowatt-hours delivered by the District to the customer to serve their metered load are billed at the District's full residential retail rate. The kilowatt-hours generated by the customer's PV solar system that is over and above what is needed to meet the customer's hourly load is purchased from the customer at the District's wholesale energy rate. This purchase amount is paid to the customer in the form of a credit on their monthly bill.

Additional Charges:

1.5 % late payment penalty fee, 35% collection fee plus 1.5% monthly on unpaid balance, \$100.00 additional deposit required for a non-pay disconnect, \$50.00 in house reconnect fee, \$150.00 same day re-connect service request fee, (truck call out if possible) \$35.00 non-sufficient fund check charge or meter re-read when meter is correct.

Tax:

If applicable, City, County, and or State sales tax will be applied to all charges stated above.
